## INTRODUCTION

*Elson Union Ball Valves are manufactured using Lead Free DR Brass. An innovative time saving valve range providing multiple combination of connection types and allowing combination of pipes to be easily connected and isolated. Ideal for maintenance plumbers and the broad plumbing industry as a whole. The Combination Union Ball Valves allow for easy isolation, replacement, service and repair of damaged or blocked pipe supply lines.*

### Union connection types

- elson PRESS
- Capillary Connection
- elson BUSHPEX Pull-On
- Flared Compression
- Female Thread Connection
- elson BUSHPEX Crimp-On

**Combination Union Ball Valves are available to connect pipe from 15mm to 25mm**

### Technical Information

- Watermark Certified WMKA21922, Conforms with AS5830.1
- AS/NZS 4020 Compliant
- Ball Valve Body 2500kPa Rated
- Press Connector 1600kPa Rated
- Flared, Capillary, Female Thread, BUSHPEX Connector 2000kPa Rated
- BUSHPEX Connector Max continue working temperature 70°C
- Press, Flared, Capillary, Female Thread connectors Max temperature 95°C
- Manufactured from Lead Free DR Brass
- Heavy duty 304 Stainless Steel Lever Handle

**Elson Union Ball Valves are made of LEAD FREE DR brass.**

**Elson is committed to being leaders in Lead Free DR Brassware manufacturing**

We have been manufacturing Lead Free DR Brass plumbing products since 2016 with the introduction of Elson Lead Free DR Brass Press fittings and from then we have continued to expand our Lead Free range to include Water Meter Ball Valves, Hot Water Valves, Press Ball Valves, BUSHPEX Ball Valves and Screwed Brassware. **We are committed to extending our Lead Free DR Brass offer even further as we continue our manufacturing leadership with Lead Free DR Brass plumbing products.**

### Benefits to You: CLEAN HEALTHY DRINKING WATER

Contribute to provide clean healthy drinking water in contact with Lead Free DR Brass products. Materials in contact with drinking water are

AS/NZS 4020 compliance. Compliance to USA and European Lead Free DR Brass guideline limits.

### Caring for our ENVIRONMENT

Elson Lead Free DR Brass products offer an environmentally friendly advantage while still maintaining the proven product quality you expect from Elson Australasia. Lead Free DR Brass can be recycled.
